Personal Details:
08/07/88 • FATSA • Republic of Turkey
Male • Married

Highly accomplished and resourceful professional with substantial experience in planning, designing, and construction with optimal utilization of project management techniques. Demonstrated excellence in cross-functional collaboration, mission & vision, quality assurance, documentation, and cost-effective solutions. Radical success in contract management, safety & health protocols, and schedule planning. Well-versed in contractors/sub-contractors' relationship, material quality assessment, profit margins, reporting system, and end-to-end construction process. Instrumental in building credibility with executive management, key clients, and employees by leveraging articulate communication and interpersonal skills.

AREAS OF EXPERTISE

-
- | | | |
|----------------------------------|-------------------------------|--------------------------------|
| • Cross-functional Communication | • Delegation & Prioritization | • Construction Regulations |
| • Construction Budgeting | • Conflict Management | • Safe Operating Practices |
| • Time & Project Management | • Problem Solving | • Design & Resource Allocation |

PROFESSIONAL EXPERIENCE

Sicim SPA, Iraq Construction Manager

2020 – Present

- Diligently monitored and controlled contractors' activities and performance, ensuring adherence to project schedules and quality benchmarks.
- Spearheaded cost estimation aligned with contractor invoices, streamlining financial aspects while maintaining budgetary control.
- Acted as a key liaison between the engineering department and contractors, fostering seamless communication and collaboration.
- Orchestrated project calendars and material logistics, aligning them meticulously to meet construction timelines and quality inspections, optimizing efficiency throughout the projects.
- Ensured rigorous control of contractor construction activities in strict compliance with project drawings and specifications, upholding quality standards.
- Regularly reported progress updates and performance metrics to key stakeholders, clients, and senior management, showcasing transparency and accountability.
- Enforced strict adherence to health, safety, and sustainability policies and legislation, fostering a secure and sustainable working environment.
- **EPC for Water Treatment & Facilities Expansion at West Qurna/Iraq**
 - Oversaw project management, detailed design and engineering, procurement, inspection and testing, supply and transportation, construction, pre-commissioning, commissioning, and provision of assistance during start-up and performance tests.
 - Designed and execute facility development including extension of high pressure (HP) and medium pressure (MP) water heaters, new produced water treatment (PWT) unit, new water injection (WI) system, vent gas compressor unit (VGCU), and expansion/extension of utility systems.
- **EPC for Yamama Pilot Production Facilities at West Qurna/Iraq (Phase-2) Contract Area**
 - Attained certificate of achievement from Lukoil Oil Company project manager and site manager in recognition of positive contribution to Project Yamama Pilot Production Facilities, specifically attributed to quality performance tables, elimination of work front obstacles, and monitoring control/subcontractor management.

- Governed construction for pilot production facilities packages (degassing, SIH/SS, chemical, flare, piping sleepers, trenching for cables, shades for instrumentation), at three locations for wells Y678, Y787, and Y83.

Yüksel İnşaat, Saudi Arabia
Section Chief

2015 – 2020

- Conducted daily and weekly project assessments, facilitating comprehensive evaluations crucial for project progress tracking and strategic decision-making.
- Orchestrated seamless collaboration between the technical and site offices, bridging the gap for coordinated efforts and streamlined communication, essential for project coherence.
- Directed the application of construction activities in strict alignment with project drawings and specifications, ensuring adherence to quality benchmarks and project requirements.
- Managed material requisitions and budget allocations in tandem with subcontractor invoices, optimizing resource utilization and financial allocations for project needs.
- Spearheaded the enforcement of rigorous health and safety regulations, fostering a culture of safety across both field and managerial operations.
- **Riyadh Bus Rapid Transit System (BRT)**
 - Commanded 22km of road rehabilitation works, construction of 17 pairs of bus rapid transit systems stations, 1353 ea. community bus stops, and 6 ea. pedestrian bridges in collaboration with all construction works across one of the largest projects in the country.
 - Adhered to 24-month timeline within budget of \$508M.
- **F-15 Fleet Modernization Program, Royal Saudi Air Force Projects: KKAB-13-0001, KKAB-13-0002 at King Khalid Air Base (KKAB), Khamis Mushavt**
 - Engineered design for construction of additional facilities for training 1200 RSAF personnel in total related to F-15 aircraft in King Khalid Airport. Approximate area of facilities is equal to 46.000 m2 in total.
 - Navigated work alongside Gilbane - Yüksel İnşaat as a registered subcontractor in joint effort with the U.S. Air Force and a project cost of over \$100M.
- **Construction of Stormwater Networks in Al Naseem East, Al Naseem West, and Maizaliah Districts in Riyadh**
 - Spearheaded project consisting of construction of stormwater drainage network at the quarters of East & West Naseem and Muazliah as well as the squares of Al Moroug, Al Masiaf, and Al Nakeel across 40 km length box culvert and 126 km length pipeline with all related construction works.

EDUCATION

Bachelor of Science in Civil Engineering
 Eastern Mediterranean University ▪ Famagusta, Turkey

LICENSES & CERTIFICATIONS

Advanced Project Management Training
 Bizpro, 2020

Autocad
 Bilişim Training Center, June 2014
